The back of the device enclosure is shown, featuring a grey metal casing. A blue braided cable is coiled and secured with a black zip tie. A black power cable is plugged into a port on the right. A label on the right side contains the following information:

Northco	NEA #	371680
Comp Name:		1010
Date Rec'd:	3/21	Item #:

A QR code and the number 4898F454 are also visible on the label. A small black label with a barcode and the number 18105 is located near the bottom left. The text "Label affixed to back of device enclosure" is overlaid in red at the top of the image.
